Re: Application/Control Number 09/933,725

Dear Mr. Poe,

I have reviewed your response to my application. In reference to the possible restrictions we spoke about, I have decided to make some clarifications (amendments) in my application and have decided to attempt to traverse this action and proceed with the examination. I have amended the application and included a new claim (12). This claim has been inserted as a linking claim between an amended claim 1 and claim 2. This linking claim prevents the restrictions as outlined in MPEP. I request that all the claims in the application be rejoined. It is my firm belief that after examination, it will be clear that my application is one which is not only patentable, but is one that can also be patented as described in the writing.

Should the application not be able to proceed as I anticipate, I choose to pursue the patent on the method / process of the invention. This such method / process is described in claim 2 and its dependent claims.

Thank you.

Steve Everett
